SCIENTIFIC SCHOOL ON MATERIALS
FOR BIOMEDICAL APPLICATIONS

MATBIO 2017

19TH-22TH JUNE 2017

AT ICMAB, CAMPUS UAB (BARCELONA)

**SCHOLARSHIPS
AVAILABLE!**

will be granted based on CV
and motivation letter

Scope of the Workshop

The summer school “Materials for Biomedical Applications” is addressed to last year undergraduate, master and PhD students, who are interested in the development of materials with biomedical applications.

The aim of the summer school is to present the design, development and application of new materials for a wide range of biomedical applications. The school includes lectures from international and local scientist, Hands on and management activities.

As a consequence, this Scientific School is an optimal opportunity to discover, learn and practise on material science focusing

on fundamental science and applied research in the field of biomedicine. The school is included in the Severo Ochoa activities.

MAIN TOPICS

Biosensors
Drug delivery: carriers
Imaging/diagnosis
Tissue Regeneration
Bioengineering Scaffolds
Therapy
Materials cycle

Venue

Intitut de Ciència de Materials de Barcelona (ICMAB)
Universitat Autònoma de Barcelona, Campus UAB,
08193-Bellaterra, Barcelona
(SPAIN).

Local Organizers:

Dr. Arantzazu Gonzalez
Dr. Anna Laromaine
Dr. Rosario Núñez
Dr. Jose Vidal-Gancedo
Dr. Gerard Tobias

REGISTRATION FEES

For all the participants:

100 €

Registration fee covers the conference material, lunches and coffee breaks

SCHOLARSHIPS AVAILABLE!

will be granted based on CV and motivation letter

Accommodation

The organization highly recommends the **Hotel Campus UAB** for ideal location and convenience.

We have booked some rooms at the hotel, at **65€ individual room and 72 € for a double room**, breakfast included. Tourist tax is not included in the price (0.5 €/day)

Reservation must be made by the participant themselves at until 10/05/2017, sending an email to jreception@hotelpcampusuab.com indicating **MATBIO 2017** in the subject.
